

Technical Specification

F-930 · 3-in-1 cold-water carpet extractor

Parameter	Documented value
Power supply	220 V / 50 Hz
Suction motor	1,000 W
Brush motor	120 W
Water pump	110 W
Clean-water tank	40 L
Recovery tank	30 L
Working width	450 mm
Power cord	15 m
Suction	29 kPa
Net weight	40 kg

Application

Professional cleaning workflows such as carpet, upholstery, fabric or vehicle-interior cleaning, subject to the selected configuration and application.

Export & configuration note

Confirm destination voltage/frequency, plug, electrical load, packing, delivery terms, documentation and any destination-specific compliance before ordering. Final configuration is confirmed in a written quotation.

JingBear is a B2B equipment sourcing and solution partner. Technical figures are based on available product documentation; they are not a substitute for a destination-specific quotation.
